## ABOUT US.

Established in 2011 and incorporated in 2015, Recline Interactive has grown to be one of the best suppliers of IT services and solutions in Uganda. Our goal is to provide professional, reliable and cost effective IT services to both business and residential customers.

We have a varied client base which includes Government, and Project implementation firms, NGOs, (Medics) Clinics/Small Hospitals, Schools and Hotels/Hostels.

Our team comprises of experienced qualified technical staff. We employ a system of (R&D) Research & Development to ensure our skills are kept up to date, enabling us to efficiently support the latest hardware and software technologies.

Our particular area of expertise is in providing a range of services and support to small and medium size to big businesses around the country. Our Support Staff have a proven track record working with a variety of software to ensure proper delivery to our clients.

## MISSION

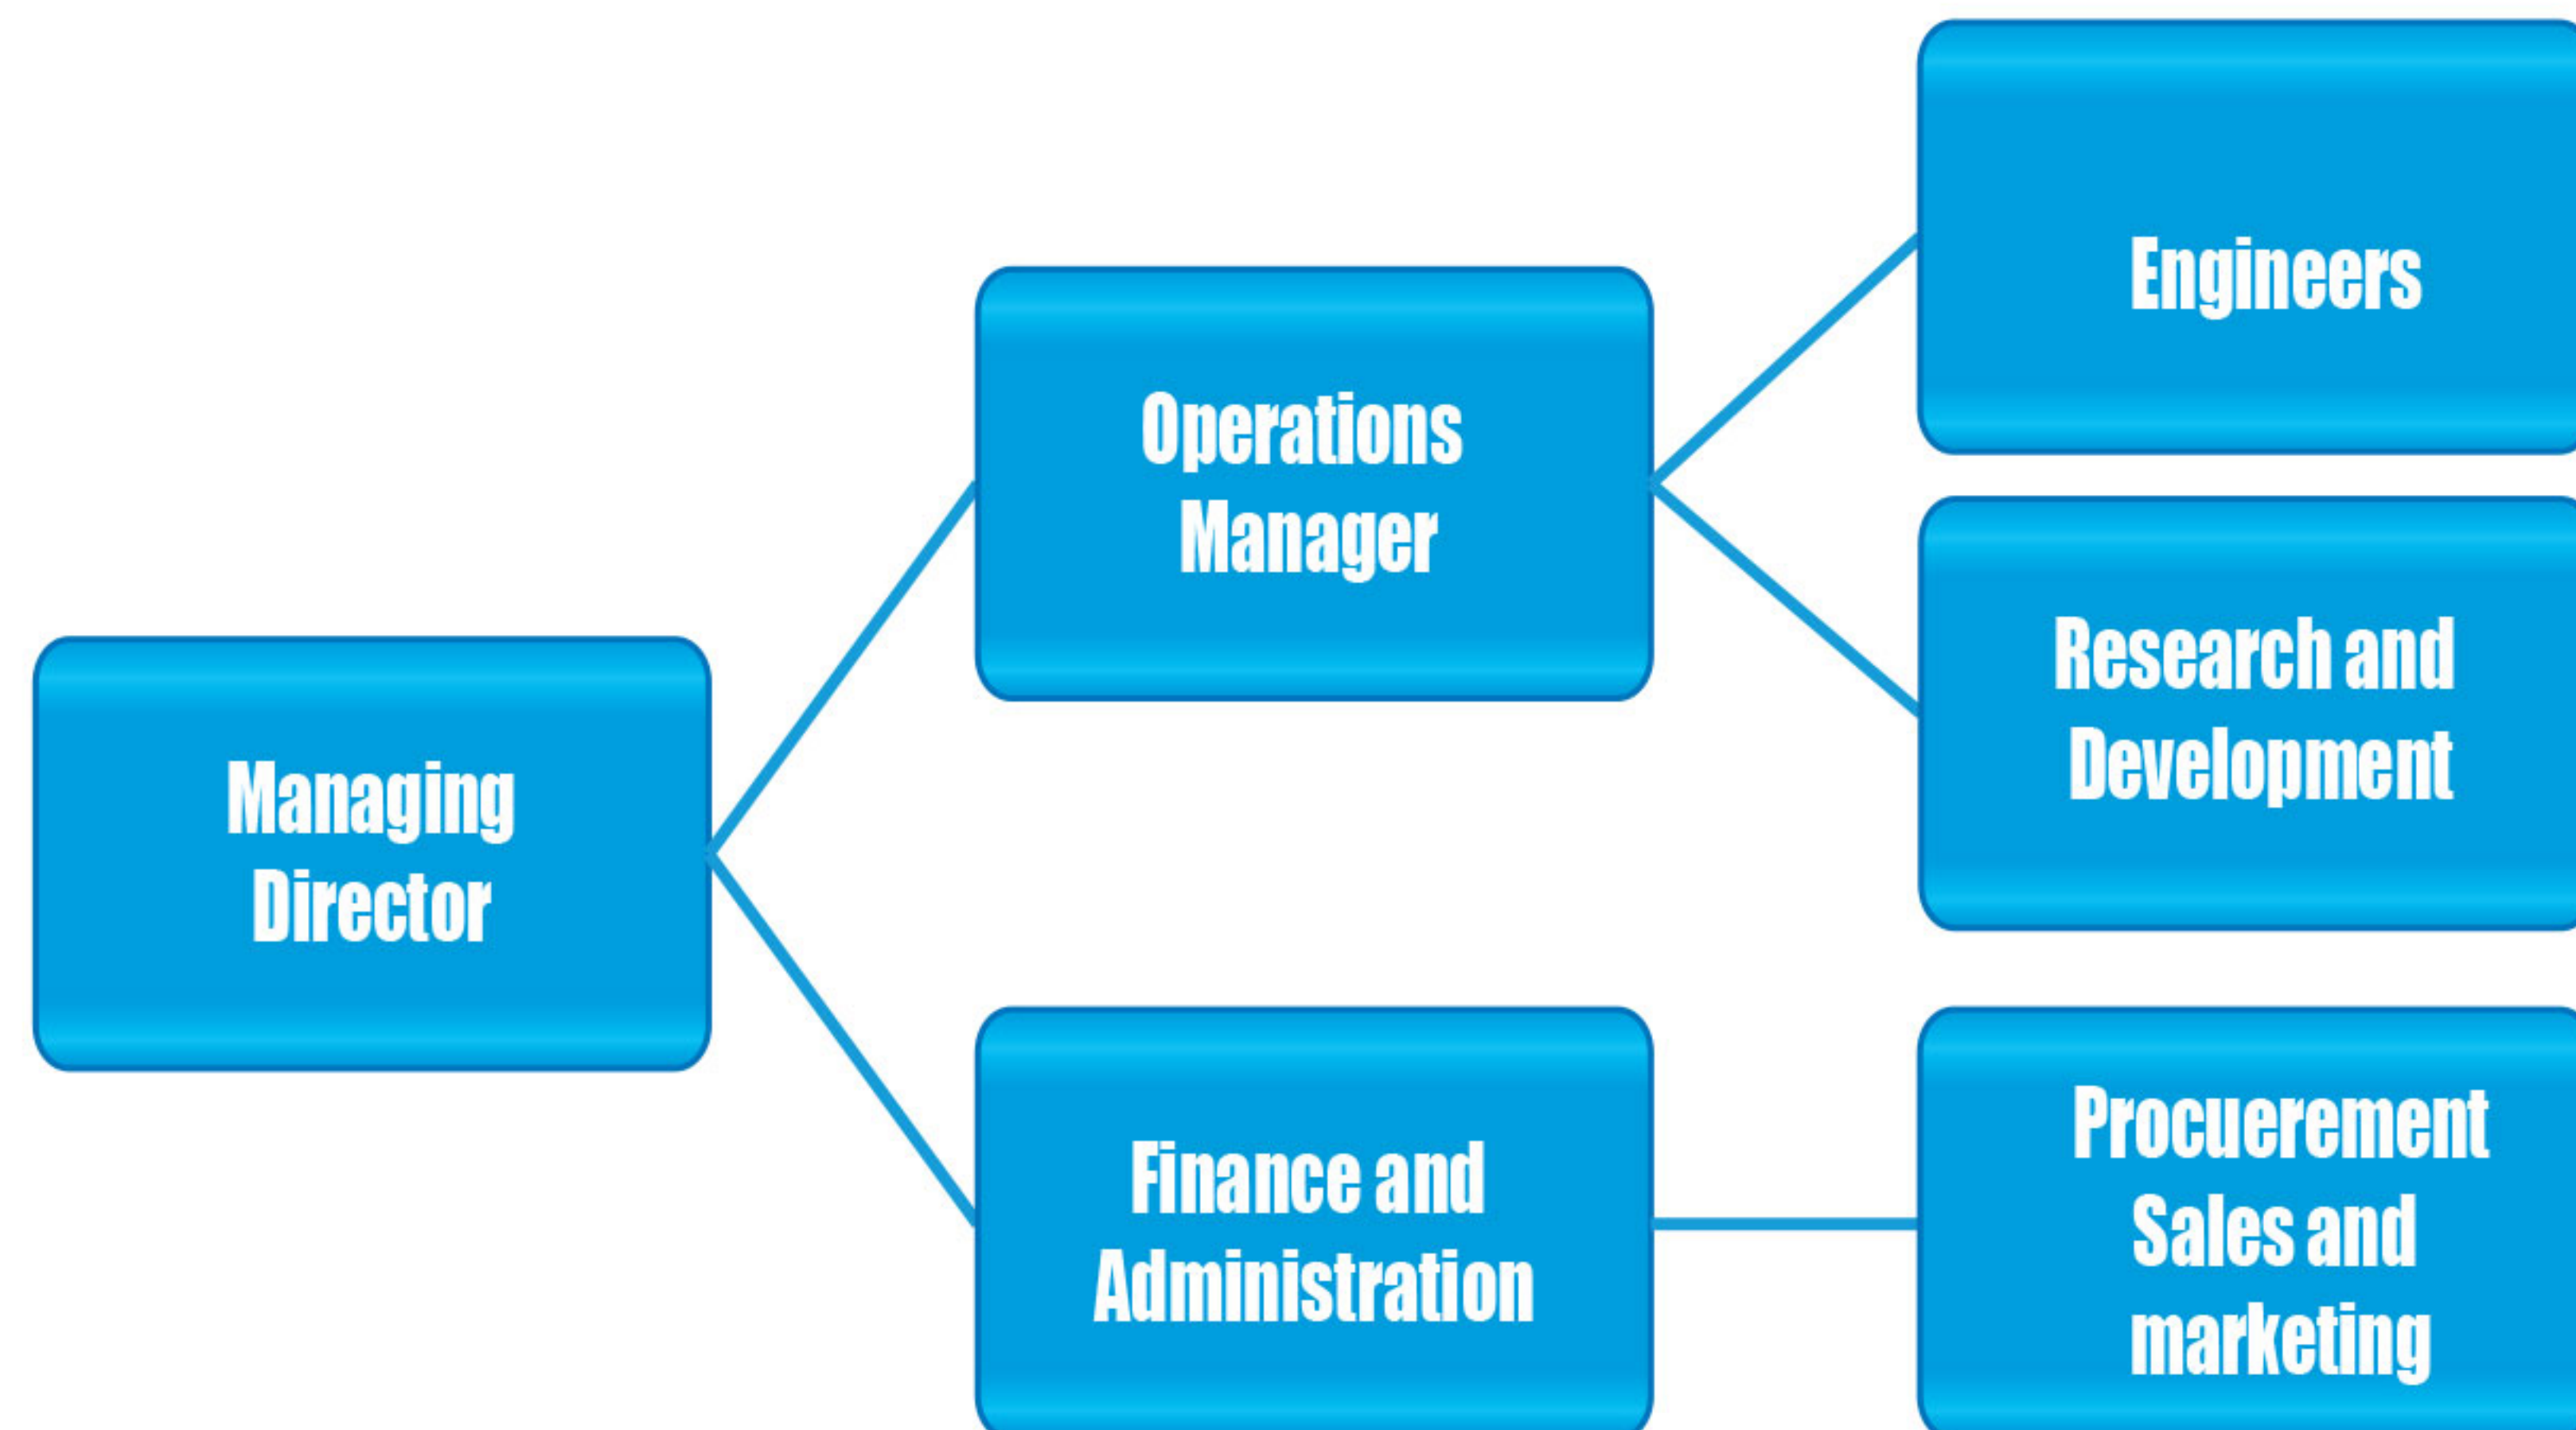

To enable all forms of business realize their potential through Information, Communications Technology, business integration and security.

## STAFF

The ability of our staff to adapt to quickly transforming technology makes us a stand-out in this line of business. The team therefore has a wide skill base to provide clients with the best services

## ORGANIZATION STRUCTURE.

Our different departments are well coordinated to offer customer specific needs in a timely and professional fashion.

These entities enjoy close synergy and are committed to the provision of effective support services to customers.

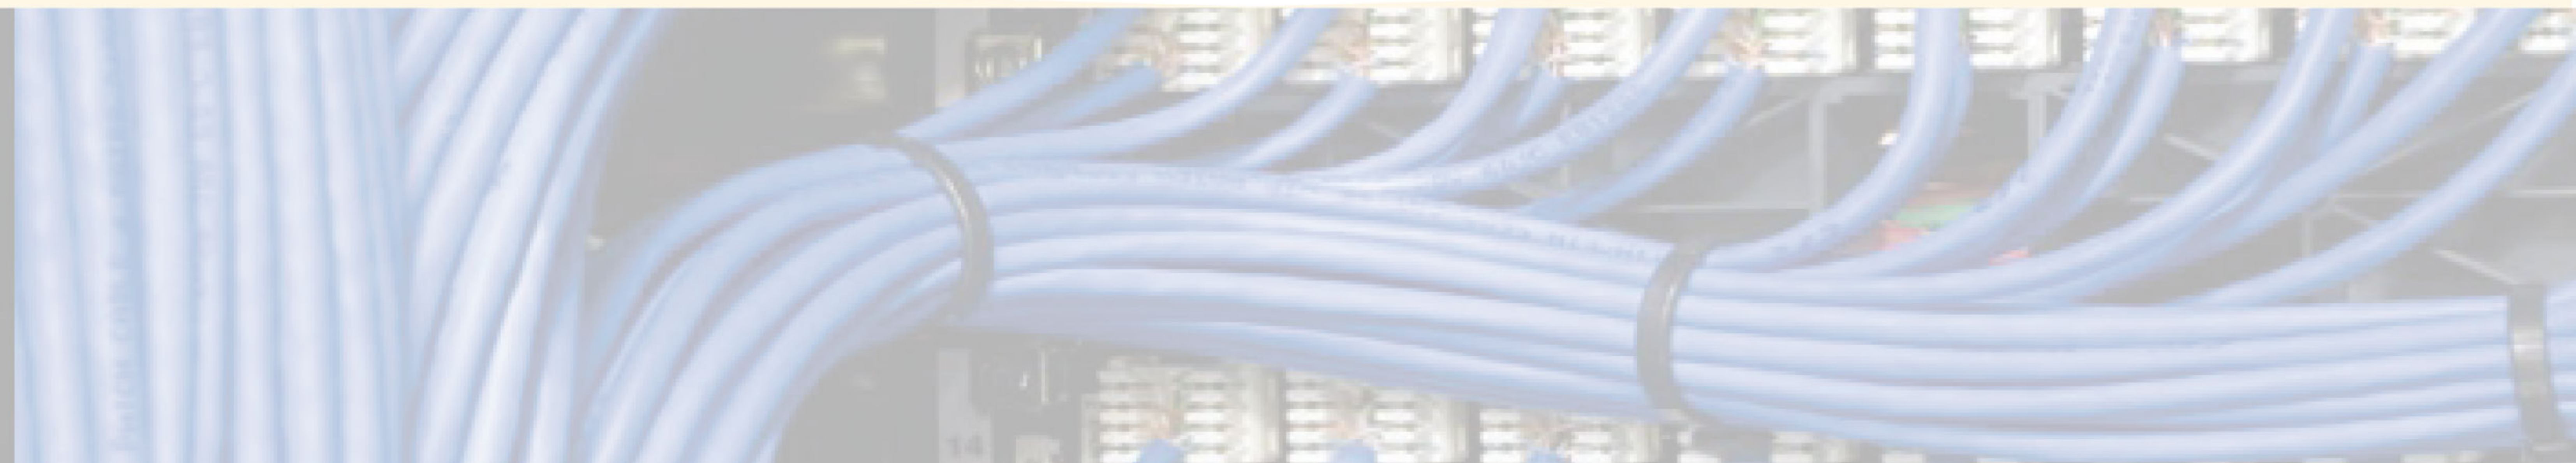

## NETWORK DESIGN AND INSTALLATION

We offer a full design and installation service for all sizes of networks. From small peer to peer work-groups for a few systems to local area networks (LANs) for larger installations and multi-site wide area networks (WANs) that link two or more LANs as well as integrating wireless LAN solutions at the most competitive prices.

We also configure servers for each client's individual requirements.

While designing a LAN for you, we can also integrate voice by cabling for your Intercom / telephone network, here we can install and configure you a PBX/PABX to manage your calls.

## INTERNET INSTALLATIONS

From advising on a suitable Internet Service Provider (ISP) to supplying, installing hardware and configuring your connection, Recline Interactive Limited will help you get the most from ISPs. With the recent roll-out of high speed Broadband and ADSL internet links, if you don't already have an internet link, now is the time to get it. You'll wonder how you managed without it!

## APPLICATION & WEB DESIGN

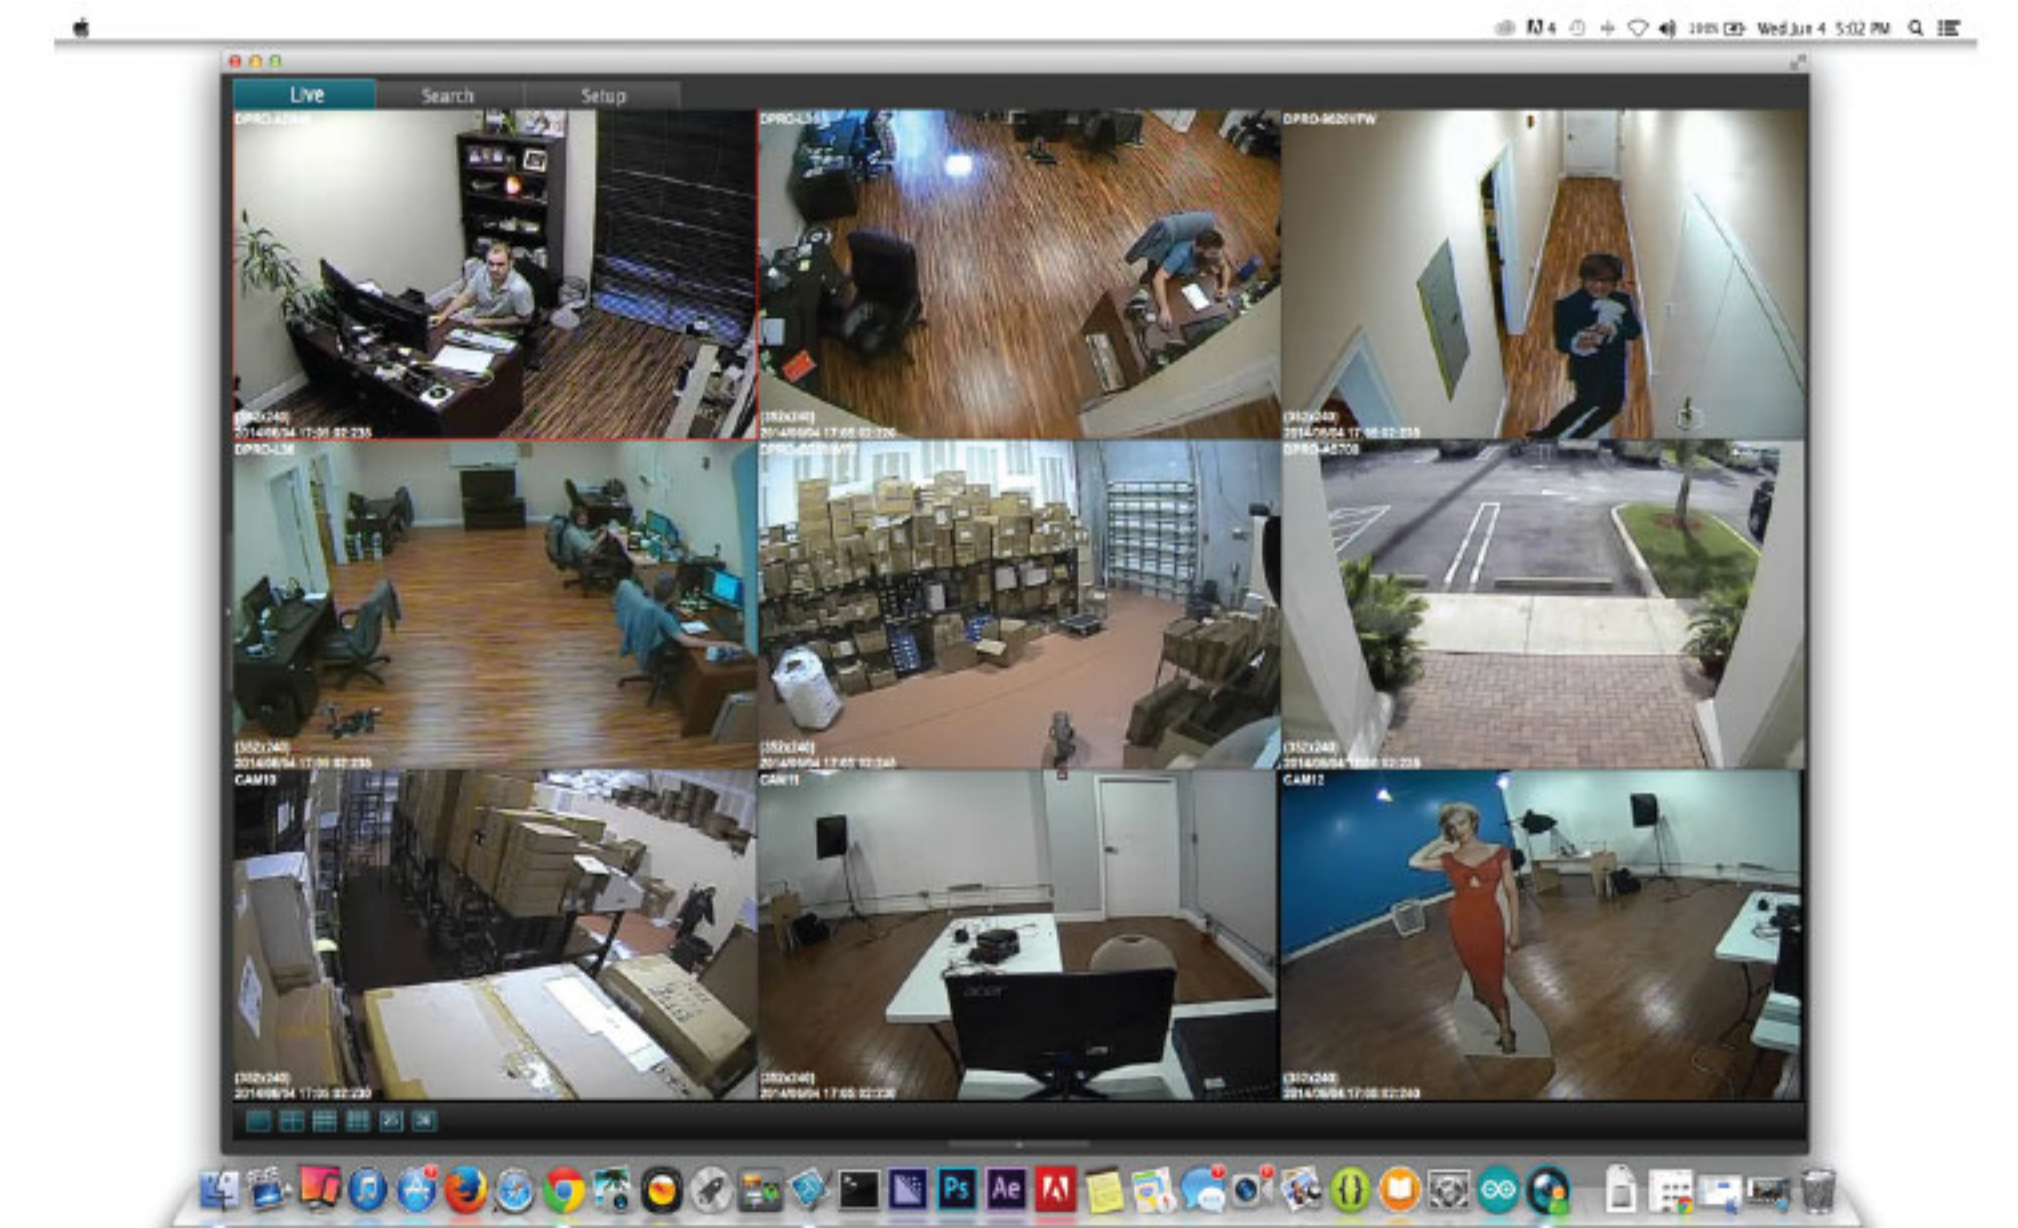

- Web Design
- Hostel and School Management Applications
- Hospital Management Software

## CCTV and ACCESS CONTROL

Ranging from a wide range of hardware, we are able to install, train and maintain CCTV and ACCESS control with top notch products

## BUILDING MANAGEMENT SYSTEMS

We offer both home and commercial building management systems that aid in the proper use of technology in the building.

This includes integration of all systems in the building which makes monitoring a lot easier.

This helps to reduce the cost on different energy sources hence maintaining proper efficiency
